

will be held in several large meeting rooms.

Field trips will continue on Friday, Saturday, and Sunday, covering a variety of topics including general wilderness walks, water and wetland plants, woody plants, ferns, mosses, geology, plant photography, and special programs for children. There will be walks for people of all ages and abilities, from beginners to advanced wilderness enthusiasts.

This year's guest speakers include John Mackinger, one of Kentucky's best loved naturalists, who will present a variety of his favorite wildernesses on Friday night. Saturday night's program will feature Tom Barnes from the University of Kentucky

to share your opinion.

If you're coming to the Wilderness Weekend, remember that there is no advance registration, you simply register for field trips when you arrive at the park. There is a small registration fee of \$1 per family or \$5 per person. All field trips will begin at Horseshoe Lodge throughout the weekend. The registration table will be set up in the lodge before field trips, then be moved to the Activities Center for the Friday and Saturday night programs. For first timers, Natural Bridge State Park is an excellent starting point on the Mountain Parkway, 25 miles southwest of Winchester. We'll look forward to seeing you there!
