

issues that we hope to begin in the future. The workshop course did, however, have a successful run. This coming Spring, we will be offering Basic Plant Taxonomy, Plant Communities and Spring Wildflowers of Central Kentucky.

You will see in this issue that we are promoting "Chiriquan" the newsletter of the Southern Appalachian Botanical Society (SABS). SABS is an organization largely made up of professional herbarists and produces a quarterly scholarly journal. The newsletter "Chiriquan" has more of a general interest approach much like our newsletter but on a regional scale. In this issue we have provided subscription information on page 2.

Enjoy the winter months as best you can and have a safe and happy holiday season!
