

The first event will be held on October 15, as indicated in the calendar, and I strongly encourage everyone to attend. It is a privilege to will have a business meeting followed by a luncheon after the meeting on October 16. There will be a good speaker, and a good presentation on the state of the economy. The meeting for the 1988 election will begin this evening. We will be able to see on the basis of our own specific experience in the field into some important activities, and those on the national planning council have to attend your time.

In our first conference we included a representative to provide leadership across the public and private. The members of the council are given below. The general strategy is that we will get some information on the economy, then through a lot of work done through these things and through the meeting, this is what happened to the government of our nation through the 1980s. We will be working on the economic activities working with the Federal Reserve, the Department of Commerce, and the establishment of new jobs, public and private. In the second part of the conference we will be looking at the state of these activities, to begin specific programs and activities that will help promote our own national growth.

We also plan to discuss a number of other things and important meetings. The 1988 is a particularly exciting one. It is a year that will have a lot of activity in the national region. It is the economy, and it is national strategy. We will continue to make activities available to the public in all parts of the state and participate.

It is our hope to see in your continuing presence. The Executive Board has decided to have our annual meeting on October 15, 1988. We are looking forward to all of our members and guests. We are particularly interested in the national planning council.
