

will be a very interesting gathering. We are pleased to be able to give assistance to suitable students of Science in the North West. Please forward names to: Miss Campbell at 20, St. Mary's, Whitechapel Road, London E1 6AP. Please state the amount you would like to contribute from your share.

The general interest shown in education and in general social welfare concerns and especially those of the scientific group, I would have liked Mrs. Stoney to discuss at Whitechapel during our last gathering at last October as well as to be in office and discuss the work we are doing in such connection for those of us who are interested and eager to get on with it.

As my mother-in-law has one of the best water color painting collections in the world, you will notice that the first volume of the second number of 'Whitechapel' has to reproduce the 'Whitechapel' by David Turner of 1844. There

also I think makes an excellent gift to scientific circles. With other very fine sets of our general family portraits, we will continue to be one of our most interesting sets.
