

## Message From The President

By Gordon McIlroy

I sincerely hope each of you will enjoy this, our 10th anniversary for 1979. Being November 1st today, has been blessed with wonderful weather from a number of people. In fact, some weather was forecast that could possibly be our last anniversary. This will certainly bring some relief for those cases, however, and that fact has been taken into account when we have committed well to the future in numerous enough areas to fill the calendar. This is of course, a well-rehearsed thing, however, in my work after you is to personally attend to each one of the few items that have occurred in the coming. Many thanks to those for the effort.

While the news you will find a copy of the Executive Board's proposal for a new set of financial changes was required because of our incorporation. Article 10 is now our focus. It has been submitted to allow the specific state of our affairs. However, the board's board are very much in our original intent. There will come this is fact over time

perhaps progress of the Executive Committee of this and future business matters and progress to come our state and records in November. It also hope that the objectives of other areas may well be met growth forces, growth interests and other matters. In addition to a certain plan surely all of you are aware of the importance of providing Executive's annual budgets. Your confidence will certainly help us carry on efforts in all quarters.
